Benin Republic has simplified its entry process through an electronic visa (e-Visa) system, making travel convenient for international visitors. Delegates are encouraged to check the latest visa requirements well in advance of their departure and apply early to avoid delays.

Do I Need a Visa?

Visa requirements vary depending on your nationality. **Citizens of ECOWAS Member States and all African countries may enter Benin visa-free for stays of up to 90 days**, subject to prevailing immigration regulations. Travel Well:

Health Tips for AAG 2026

Whenever people travel and gather, a few simple habits help everyone stay well. Health authorities across Africa and the World Health Organization are monitoring an Ebola outbreak, and we follow their guidance.

WHO's message is that there is no need for panic, and that supporting public health measures is what helps.

Simple habits

1. Wash your hands often with soap and water, especially before eating and after travel.
2. Wash your hands often with soap and water, especially before eating and after travel.
3. Give anyone who is visibly unwell some space. Ebola spreads through direct contact with the blood or body fluids of a person who is sick, not from people who feel well. WHO notes people cannot transmit it before they have symptoms.
4. Look after yourself on the road. Drink enough water, rest, and carry any personal medication you need.
5. If you feel unwell, don't wait it out. Seek medical care early and tell the clinician where you have been. Early care can be lifesaving.
6. Plan ahead. Check your airline's and Benin's Ministry of Health's latest entry guidance before you fly. For updates, rely on official sources: WHO · Africa CDC · Benin Ministry of Health.
